

LEGACY LEAGUE

*Your thoughtful decision today
is your legacy gift
of security and comfort
for the families who follow you*

Why Legacy League?

The Hospice of San Joaquin wishes to express our gratitude to donors ***now, for future contributions.***

Thank you for the support you already provide to Hospice of San Joaquin. Your support in the future is critical. You may wish to support Hospice of San Joaquin in a substantial way, but a current major gift may or may not be right for you now. Another way to give is to make a designation of a future gift through your will or living trust or beneficiary designation of an IRA or life insurance policy: this is a ***legacy gift.***

The donor of a 'planned' or future gift is encouraged to notify Hospice of San Joaquin of his/her intent. A planned or deferred gift is one that is currently designated for distribution in the future; or other designation of assets or property.

How do I/we become Hospice of San Joaquin Legacy League Members?

Those who name the Hospice of San Joaquin in their wills, living trusts or other estate planning vehicles, i.e., insurance policy, IRA, charitable remainder or lead trust and who notify Hospice of their intention, will be recognized today as Legacy League Members for gifts that will come to the Hospice of San Joaquin in the future.

What are the benefits of Legacy League Membership?

Legacy League Members will be listed on the ***Legacy League Scroll*** and will be invited to join the Hospice of San Joaquin family at the Annual Recognition Dinner in the year the Membership is received.

Legacy League donors who make irrevocable gifts will have their names inscribed on a perpetual plaque at the Hospice of San Joaquin's Pacific Avenue site. All donors of mature (received) gifts will be included in the perpetual plaque.

A ***Hospice of San Joaquin Legacy League*** membership is attached along with suggested language for communication to professional advisors that is necessary to implement your wishes. There is no further obligation to share details of your estate planning documents with Hospice of San Joaquin. However, if you wish to do so, know that this may be most helpful in planning for hospice services to meet the future needs of the community.

Please let us hear from you.
